How to use?

DIRECTIONS

General cleansing of eye surrounds

1. Prior to treating the eye are ensure that your hand are clean.

2. Open the sealed pack and remove the wipe.
3. Use a separate wipe for each eye.
4. *Remove all mucous secretions and residues from the eyelids and lashes by wiping in a downwards direction. Take care to clean in between the lash and corners of the eyelids.

5. Do not reuse wipe - dispose of wipe in a suitable container.

Warm Compress

1. Prior to treating the eye are ensure that your hand are clean.

2. Without removing or opening the pack, soak an Eye-Care wipe in a container of hot water for a few minutes. Note do not heat the wipe if the pack is open.

3. Remove the wipe from the pack and ensure that is it not over hot before use.

4. Place the wipe over the closed eye for a few minutes and then wipe the eyelids and lashes as directed (4*). Dispose of wipe in a suitable container.

To use Eye-Care as a cold compress, store sealed pack in the refrigerator (39.2º F/4º C).
